

HD19-IDB DIE MOUNTED SENSOR INTERCONNECTION BOX

This product is intended to mount on the die shoe and allow a maximum of eight sensors to wire directly to it.

- The terminal block on the inside features a removable connector for easy wiring.
- The external mating connector is compatible with Wintriss HD19 cables for connection to Wintriss DSI2 sensor interface.
- The cover plate comes with a urethane rope gasket to protect the wiring from oil.
- Each end is fitted with a multi-conductor cable grip designed to accommodate up to four 4mm diameter sensor cables.
- Unused holes may be plugged.

Order part # HD19-IDB

Price: \$425 per unit
